Flat 2 Round house
Portsmouth uk. PO13SF

Objective:

Highly motivated and talented Computing Graduate seeking a challenging role where I can contribute to product development using the latest technologies, particularly in the field of cyber security. I am eager to work on cutting-edge software design, leveraging my expertise in systems, low-level, kernel, and device driver development. With a genuine interest in this field and a strong willingness to learn, I am confident in making an immediate impact on the agent architecture development.

EDUCATION

- Bachelor Of Science Software engineering
Portsmouth University, Portsmouth UK 2021
- Bachelor of Science in Computing
Edinburgh Napier University, Edinburgh, UK 2023

COURSES

- | | | |
|------------------------|-------------------------------|----------------------------------|
| • Computer Ethics | • Database Management Systems | • Algorithms and Data Structures |
| • Software Development | • Operating Systems | • Low-Level Programming |
| • Web Technologies | • Computer Networks | • Object-Oriented Programming |
| • Programming | • Software Engineering | |

EXPERIENCE

IT Assistant

Jirwa and Sons Nigeria Limited, Nigeria
2020 to 2023

Assisted with computer installations and troubleshooting, ensuring smooth operations.

Managed computer networks and performed necessary maintenance tasks.

Installed and monitored CCTV cameras to enhance security measures.

Engaged in basic database management tasks.

Conducted thorough testing and debugging to ensure the reliability and performance of the developed components.

Contributed to the improvement of existing software systems, identifying areas for optimization and implementing effective solutions.

Worked closely with stakeholders to gather requirements and deliver high-quality software products.

Projects

- Dog breeding Web Application: Developed an online platform for breeding dogs where a dog can be advertised as available for breeding using html, CSS and JavaScript. Implemented Demonstrated proficiency in systems and low-level development.
- Shopping App. Contributed to the development of a shopping Application using Java as part of the software engineering team at Jirwa and Sons Nigeria. Utilized low-level programming techniques.

- Quiz app: created a quiz application as part of my university project assessment using Html, CSS and JavaScript.
- Database design: During my second year in university, I design and managed a database system as part of my project.
- Networking: I worked as part of a team to network two building together at jirwa and sons.

ONLINE COURSES

- | | |
|-----------------------------------|-----------------------|
| • Introduction to Ethical Hacking | • Database Management |
| • Cybercrime | • CompTIA |
| • Data Analysis | • Social Engineering |
| • IT Help Desk | |
| • Office Management | |

SKILLS

- | | |
|---|---|
| • Proficient in computer installation, troubleshooting, and networking. | • Detail-oriented with the ability to handle multiple tasks efficiently. |
| • Knowledgeable in database management systems. | • Cyber Security: Understanding of security principles and best practices. |
| • Familiarity with ethical hacking and cybercrime concepts. | • Problem-Solving: Strong analytical and problem-solving skills |
| • Skilled in data analysis and IT help desk support. | • Teamwork: Collaborative approach and effective communication skills |
| • Strong understanding of office management practices. | • Self-Motivation: Proven ability to work independently and meet deadlines. |
| • Certified in CompTIA. | • Adaptability: Willingness to learn new technologies and programming languages |
| • Excellent problem-solving and communication skills. | |
